

## The New Normal...a Message to the Students

It's so sad to think that this is the "new normal" now. We have to accept the fact that because of coronavirus, we cannot go back to our situation before. It will take a long time or rather it will never be what we were before.

We have to try to get used to the "new normal" now. No face to face classes, always wear a mask, practice social distancing, observe cleanliness at all times, learn to embrace online classes, tons of reports and other paperwork to finish, but with all the negativity around, please do all your best to NEVER QUIT!

Everything is not constant in this world. This pandemic will end, too. When? I don't know, but hang in there. Fight to the fullest! Do whatever you can do right now. Don't stop! Please go on. I want to tell you this, but maybe only the Starwars fans will understand ----"May the force be with you!" May God bless you. I'm with you on this.

Please stay safe everyone!
